FATAL EXPLOSION.

Six Lives Lost in a Powder Mill Explosion This Morning.

Was Working on Large Orders of Smokeless Powder for the Government.

Scripture-McRae Service.
Poultney Lake, N. J., July 12.—The Loflin-Band Powder works blew up this morning, and it is reported that at least six lives were lost. It is feared that the entire plant will be destroyed by fire. The factory has been working on large orders for smokeless powder for the government. The property loss will be very heavy.

RETURNING TO SPAIN.

London, July 12.—Before Admiral Camara was permitted by the Egyptian government to coal the battleship Pelayo from his transport San Augustine he was compelled to furnish a written guarantee that the entire squadron is returning to Spain direct. Nearly all the vessels of the fleet have already left Port Said for Spain.

NO TERMS

Have Yet Been Made to Spain by the United States.

Washington, July 12.—There is no foundation for the report from Madrid that the United States has made demands upon Spain as to conditions of peace, contemplating the cession of Cuba and Porto Rico, with a part in the Canaries, the payment of an indemnity of \$10,000,000 and the retention of the Philippines as a guarantee of the payment of the indemnity.

THE SITUATION AT HAVANA GOES FROM BAD TO WORSE.

The Condition of the People There Is Daily Growing More Desperate—Blanco May Be Losing Heart.

QUEEN OF SPAIN AND PEACE PROSPECTS.

But She Won't Agree to Anything But the Independence of Cuba Just at This Time, Yet It Is Evident That She Will Later.

HAVANA PAPERS STILL LYING ABOUT THE SITUATION.

KEY WEST, July 12.—From Havana comes the report of the ravages of war sustained by soldiers and civilians of the beleaguered city, and the awful and desperate conditions that surround them and daily growing more desperate.

The spirit of desperation seems to pervade even the high military authorities and volunteers are openly favored by them at the expense of the Spanish regulars, which may cause trouble with the troops.

The Havana papers of July 6, contained full, long, glowing accounts of the defeat of the American squadron at Santiago and a great victory by the land forces under General Linera at the same place. The papers also declare that after Admiral Cervera captured or sunk the American fleet, and disposed of prisoners and prizes, he put to sea for Havana, and will engage and capture or sink the blockading squadron and lift the blockade.

General Blanco has recently been sharing his authority with the autonomist leaders, which is generally looked upon by the people of the city as conclusive evidence that he has lost heart at last and seeks to divide the responsibility of impending defeat.

THE QUEEN WILLING TO TALK ABOUT PEACE.

LONDON, July 12.—The Standard has a Berlin dispatch which says it is learned the Queen Regent of Spain is willing to negotiate for peace directly with the United States. But that the maximum concession that the Queen is willing to make at present is the absolute independence of Cuba.

DENMARK MAY MAKE TROUBLE.

Her Government May Attempt to Prevent the United States Using Her Own Coal at St. Thomas.

NEW YORK, July 12.—A Journal dispatch from St. Thomas says: Denmark's pro-Spanish sympathy is showing itself to be growing in strength every day. The latest developments along this line are that the Danish government, through her minister here, has put forth a mighty effort to prevent the ships of the United States using eight thousand tons of coal which belong to the United States government at this port, and if the Danes persist in the effort there will likely be serious trouble result from it. Governor Lederman has openly declared that if the United States attempts to remove the coal by force or otherwise except by his consent her ships would be fired upon by all the German, French and Italian warships in the harbor.

This declaration of the Danish governor has created the most intense excitement among the people of this city, and has succeeded in arousing the populace, which is strongly American in sympathy.

HAS TORAL ESCAPED?

It Is Rumored That the Spaniards Have Marched Out of Santiago.

And Have Left a Desolate and Devastated City for the Americans—Has Shafter Been Hoodwinked?

Washington, July 12.—It seems Gen. Shafter's indulgence to the Spanish commander in so long extending the time for negotiations has been rewarded by a characteristic bit of Spanish craftiness. According to the latest news from the front, Gen. Shafter believes that Gen. Toral has slipped out of Santiago to the westward with all his men and arms, leaving a sacked and deserted city as the only trophy of the American army.

Gen. Toral's course in encouraging non-combatants to seek shelter in the American lines, the fact that Spanish soldiers have been pillaging the city, the evacuation of Aguadores by the Spaniards, leaving dummy guns in their entrenchments, the feebleness of the Spanish reply to the bombardment Sunday afternoon—these and other things tend to confirm the reports that the Spanish general, while asking time to negotiate for surrender, has been withdrawing his troops to the westward.

OFF FOR MANILA.

San Francisco, July 12.—Two more transports with troops for Manila will leave this city this week, probably on Thursday. Maj. Gen. Otis and staff will be with this expedition. Gen. Otis will stop at Honolulu and formally take possession in the name of the United States.

AT CHICKAMAUGA.

First Army Corps Will Probably Get Away This Week, Rushing Supplies.

Everything Almost Ready for a Long March and Hard Work. May Move Before Long.

Chickamauga National Military Park, Ga., July 11.—The great army at Camp Thomas is now being equipped with all possible haste and the supplies are reaching camp by the car load. Hereafter it has been the policy of the department to ship the ordnance and quartermaster stores to Camp Thomas by freight, but now the equipment is being sent here by express.

During the last twenty-four hours, Capt. Zalinski, quartermaster, who has in charge the disbursing of all clothing and equipment supplies at Camp Thomas, received six car loads of supplies by express, while fourteen car loads (the latter by freight) have reached camp. This equipment is being issued to the various commands almost upon its arrival. One day the two great store houses under Capt. Zalinski's care are filled with supplies, while the next the buildings are empty. Today the houses are taxed to their utmost with all kinds of supplies, which are constantly arriving from Philadelphia, St. Louis, Chicago, Boston and Jeffersonville, Ind. The amount of underclothing recently received is simply enormous, sufficient to supply an army of 10,000.

Among the supplies now being issued are 10,000 pairs of shoes, 5,000 blouses, 6,000 blankets, and 20,000 trimmings for uniforms, including the stripes, etc. The First corps as well as the Third is well fitted with shelter tents. It appears that quite a good deal of the clothing at first issued to the men was of an inferior grade, and on this account a second issue is being received by many of the soldiers at Camp Thomas. An official who is in a position to know states that the entire First corps was well equipped as far as quartermaster's supplies are concerned, while the ordnance department is rapidly fitting out the command.

Major Nye, commissary of subsistence of the Chattanooga army supply depot, has received an official notification from the commissary general, stating that 360,000 travel rations, enough to last 3,350 men for about 100 days, had been purchased and would be shipped to the local depot at once. The rations will be sent to arrive tomorrow and will continue coming in all the week. These travel rations consist for the most part of canned corned beef, canned salmon, salt and hard tack, and will be sent out with every body of troops that leaves the park for the front.

There is an impression among the officers at Camp Thomas that there will be a heavy movement of troops during the coming week. The First Ohio cavalry leaves tomorrow morning, its preparations for departure being complete. It is said that the entire First army corps will get away before the end of the week. The Second brigade, first division, First corps, may get away tomorrow or Wednesday. The departure of this brigade depends upon the ability of the officials to get transports to Charleston, S. C.

Pursuant to orders from the war department, three wagon trains of twenty-seven wagons each and 324 mules are being loaded for shipment to Charleston, whence they go to Santiago. The special train bearing the mules and wagons will get away tonight.

The officers of each regiment have their hands full today giving attention to privates who slipped the guard lines during the last few days. The guardhouses are full and some disposition must be made of the offenders at once. The punishment is generally a heavy fine and police duty, but in some cases the men are dishonorably discharged.

NO FEAR AT KEY WEST.

Key West, July 12.—No yellow is here, and none is apprehended.

SHAFTER'S ARMY.

About 23,000 Available Fighters at Santiago, and Nearly 4,000 En Route.

Washington, July 12.—Gen. Shafter's available force, after counting all reinforcements, and deducting the dead, sick and wounded, is 22,850 fighting men, according to military estimates. This is based on an estimate of 16,000 men in Gen. Shafter's original expedition, and about 10,000 in various expeditions which have gone since then, making in all 26,000 men. Against this, however must be deducted the casualties in the fighting thus far, and also the men confined to the hospital by sickness. The deduction is roughly estimated at 3,000, leaving about 23,000 men available today as the fighting force of the American army. The reinforcements have gone forward from time to time, and it has been hard to keep track of them, but they are summed up as follows: Gen. Duffields brigade, 2,500 men; recruits for the regular army, 950; First Illinois, 950; First District of Columbia 850; six light batteries United States Artillery, 700; Gen. Garrettsen's brigade, Eighth Ohio, 1,300; Sixth Massachusetts and Sixth Illinois, 2,600. Another force 2,500 men, comprising Gen. Ernst's brigade, is ready to start and with this force Gen. Shafter's fighting strength will be swelled to about 25,000 men by the middle of this week.

AFTER PIRATES.

Two British Warships Will Hunt Down Spanish Privateers.

Which Are Said to Be Lying in Wait for Returning Klondikers.

Victoria, B. C., July 12.—Two British warships, the cruiser Amphion and the sloop Icarus, have hurried out to sea. It is reported that they will hunt down Spanish privateers that are said to be lying in wait for returning Klondikers.

RIOTS IN PORTO RICO.

St. Thomas, July 12.—Reports from Porto Rico tell of terrible rioting. The disorders are principally among the volunteers. The whole country is terrorized. In the interior murder, robbery and assault are rampant. The governor has dismissed the negro macheteros. Several executions have taken place, but the serious conditions still exist. The outbreaks threaten to become revolutionary unless put down in a short time.

PATRIOTISM IN GEORGIA.

The city is glorious with the flags of the Union. They fly over manufacturing, business houses, offices buildings and private residences. Atlanta is wrapped in the Stars and Stripes. For weeks past flag raisings have been frequent in this city, and during the last two or three days flags have been going up in every direction so fast that it has been impossible to keep count of them. This demonstration of devotion to the government and love for its flag has come spontaneously from the hearts of our people. The beauty and music of Union sentiment pervade the community, filling the hearts of old and young alike.

THE EVENING NEWSPAPER.

The Boston (Mass.) Transcript presents the following argument in favor of the evening newspaper as an advertising medium:—

"The value of the evening newspaper is not exhausted when it has given the news of the hour, or has helped the business men over the tedium of travel from his office to his home. Copies are seldom found littering the seats of steam or electric cars, as it is taken to the household for perusal by the whole family. Of course, the evening is the time when it can be most thoroughly read and discussed. Moreover, so rapid has become every medium of intelligence from world's end to world's end, that the evening paper is more favorably circumstanced than its morning contemporaries for keeping pace with the genuine news of each day. The facilities for extracting the heartiness of the world's history for the day, and the world's thought upon passing events, have been brought to such a high state of development that it is enabled to keep even pace with daily events, furnishing a brief resume of such morning news as may have been expanded by other sheets beyond real value and keeping the record clear and unbroken."

County Judge Tully is again ill. He was seized this morning by sudden illness and had to be carried home in a carriage. This afternoon he was unable to be at his office.

ANOTHER FLAG OF TRUCE IS FLYING AT SANTIAGO.

Spaniards Again Considering the Proposition of Surrendering the City, Which Is Completely Surrounded.

GREAT SUFFERING AMONG THE REFUGEES.

Terrible Slaughter and Devastation Wrought by the American Shells—Many of the City's Finest Buildings Were Destroyed.

GENERAL MILES HAS ASSUMED CHARGE AT SANTIAGO.

WASHINGTON, July 12.—The following telegram was received from General Shafter this morning:

"PLAYA DEL ESTE, July 11.—Adjutant General, Washington:—It has been very quiet here today, with but little fighting."

"The flag of truce has been up since 2 p. m. today, and the Spaniards are considering a proposition for surrendering the city, now that we have the town surrounded on the north line."

"Three or four casualties occurred yesterday, but only one man was killed so far as is known."

"I expect to have the new batteries in position tomorrow."

"There is a great deal of suffering among the people who have gone from Santiago, and we are doing our best to relieve them, but have not been entirely successful."

(Signed) SHAFER.

DESTRUCTION OF SANTIAGO—MILES IN CHARGE.

PLAYA DEL ESTE, July 12.—The havoc wrought by the American shells in Santiago yesterday was terrible. Notwithstanding most of the shells from the ships fell short, enough were dropped into the doomed city by the ships and army to illustrate the horrible brutalities of war.

Many of the finest buildings in Santiago are now but masses of ruins. Indeed, the slaughter of innocent people and starving soldiers, and the devastation to property were so sickening that General Shafter again begged the Spanish military governor to surrender before the city was entirely destroyed.

General Miles has arrived and assumed command of the American forces today, though General Shafter will remain in command of the operations about Santiago on land.

(Signed) E. S. WRIGHT.

OFF FOR PORTO RICO SOON.

WASHINGTON, July 12.—The indications are the government intends to start an expedition to Porto Rico soon. A large number of transports is being collected at Tampa and it is stated that the intention of the government is to start troops to Porto Rico just as soon as Santiago falls.

WHAT MADRID BELIEVES.

MADRID, July 12.—The consensus of opinion here among people and officials is that the Cuban army of volunteers is the chief obstacle to peace. Though only half fed they are determined to fight to the last, and it is believed if they would give up the Americans would relinquish the struggle.

SNAKE EMBALMED.

The Peculiar Find of a Man Out in Marshall County Recently.

Fifty Pounds of Money and a Snake Discovered in a Tree.

Mr. Robt. Reeves, a young man who lives about a mile from Oak Level, Marshall county, was in the city this morning, and reported a most peculiar find.

A day or two ago he felled a mammoth bee tree, which had been used as a rendezvous for the busy little insects for several years. He proceeded to get the honey, and after about fifty pounds had been removed, he found in the center of a comb, a perfectly preserved chicken snake which had been well embalmed.

There was nothing about it to denote the length of time it had been in its strange and unusual tomb, nor is it known how it managed to get trapped in the hollow of the big tree.

CARS BURNED.

Another Bad Accident on the Illinois Central—No One Hurt.

Oil Tanks on the Evansville Division Burned—Cars Damaged.

A number of cars of freight train No. 391, south bound, on the Evansville division of the I. C. were derailed at Livingston Park, sixteen miles above Princeton, about 4 o'clock yesterday afternoon.

Two tanks of oil, two cars of flour and one of tobacco, were wrecked, and about 8 o'clock last night the tanks of oil exploded, or caught fire in some manner not clearly known, and all five of the cars, including the two containing the oil tanks, were burned.

The conflagration will cost the railroad a few thousand dollars, perhaps, as the whole thing is understood to be a complete loss.

It was reported here that the oil tanks exploded, but this could not be confirmed at the dispatchers office. The engineer in charge of the train was named Brown, and the cause of the derailment was not learned.

Other Business That Came Up Before Judge Sanders This Morning.

Arthur Crawford, colored, was charged with breaking into the house of Dicey Powers, on Seventh street, and stealing a watch. The case was not ready for trial and was continued until tomorrow.

Another Arthur Crawford, also colored, was charged with assaulting another boy on the wharf and spitting his lip. He said he didn't do it purposely but the evidence indicated otherwise. He was fined \$5 and costs.

Isaac Jacobs, alias "Chicken," and Lee King, colored, were charged with vagrancy and were sentenced to thirty days on the chain gang. A similar charge against John Greer, colored, was dismissed.

Porteous Boyd, Wan, Manuel and Homer Steinhilber, colored, were charged with crap shooting and were fined \$20 and costs each.

A breach of the peace case was dismissed against James Doyle.

L. A. Baker, of Dresden, Tenn., charged with carrying concealed a deadly weapon, was fined \$25 and sentenced to ten days in jail. He was represented by Attorney Dennis McQuot, who asked and was granted an appeal.

STEAMBOAT SUNK.

Steamer J. W. Graves Goes Down at Cairo.

Last evening about 8:30 o'clock, the little steamer J. W. Graves sank at her moorings, a few yards south of old Ft. Defiance, a short distance below the Hillside house says yesterday's Cairo Argus. The boat lies in nearly thirty-five feet of water, careening slightly to starboard, leaving only a portion of the pilot house and the stacks visible above the water.

The steamer has a steel hull and belongs to Capt. John Mackler, of Booneville, Mo., and came into port Saturday night after a towing trip south. She will likely be raised as soon as possible.

The extent of the damage or the cause of the sinking could not be determined last night. She was valued at \$10,000, which is not covered by insurance.

ATTRACTED ATTENTION.

The Daggers Were Out In Force Today on the Sewerage.

This morning early risers imagined that part of the Spanish army had struck town. The 101 daggers which arrived yesterday to begin work on the sewerage, were marched from the campment near the Union depot, to Jefferson street, where they were put to work during the day large crowds of pedestrians would collect to watch them, and comment on their untelligible communication. They seem to be good workers, and are experts in the business, having come all the way from New York, where they have worked on sewerage for some time.

When at work there is a string of them about two blocks long.

The Dick Fowler was out for Cairo this morning at 8:30 o'clock doing fair business.

The City of Clarksville cleared today at noon for Ohio river points as far as Elizabethtown. She was doing light freight business.

The John S. Hopkins was the Evansville mail liner today, although somewhat late in arriving and departing, owing to good business and thin water.

The towboat Dick Clyde leaves today for Tennessee river after a tow of ties.

The Lookout went up the Tennessee river this morning after a tow of rock for the government works at Livingston's Point.

The H. W. Buttorff is due out of the Cumberland river tomorrow morning from Clarksville and leaves on her return to Nashville at noon. She is now the only packet in that stream.

The river is about on a stand here today. It fell slightly all day yesterday, but became stationary last night.

At the foot of Jefferson street where the dry docks are located was about the only place where any activity was noticeable today, all the rest of the river front seemed deserted.

A large force of ship carpenters, caulkers and laborers are at work repairing the wharfbark that is on the dry docks. Work is rapidly progressing under the personal supervision of Supt. Young Taylor and they will have her in the river again in a few days.

The City of Sheffield is due out of the Tennessee river for St. Louis.

The river fell at Nashville last night 1-10ths, which puts the Cumberland river down very low. The upper Tennessee is also at its lowest ebb.

The towboat Peter Houtz is up the Tennessee river after a tow of lumber for Evansville parties.

The City of Paducah is due tomorrow morning from St. Louis en route up the Tennessee for Florence.

The Mayflower leaves St. Louis today for Paducah. She turns back from here for the "Future Great."

The Bettie Owen takes an excursion to Smithland tonight. It is expected to be well patronized.

The repairs on the snagboat Woodruff are being pushed rapidly as to have her completed for the early fall service. Double steel hulls have been placed under her and she has been wonderfully improved and increased in serviceable value at an expense of several thousand dollars.

She has been under the attention of steel workers and boat builders since early spring at Cincinnati and has almost been converted into another boat. She is now much more suitable for her work than she formerly was.

Capt. Amos Price took a saw mill boat up the Tennessee river this morning.

The Woodruff went up the Tennessee river yesterday to saw some lumber for the Kilgore heading factory.

The little harbor boat Mary N. passed down at noon with a big log raft for Metropolis.

The R. A. Speed has for a certainty gone into summer retirement this time. She has made several attempts to go to the bank on account of low water, but has on each occasion been called out on an emergency trip.

The little freshet that appeared so suddenly in all the rivers day yesterday has likewise disappeared from all of them, and afforded no benefit to the steamboats whatever.

The government report this morning showed the river to be falling at all the principal points with the exception of one. Low water will now no doubt prevail throughout the summer in all the streams until the fall rains set in. River men are still hopeful that a packet stage will remain, at least until the new grain crops can be gotten out.

RELIABILITY

is a quality some newspapers have lost sight of in these days of "yellow" journalism. They care little for truth and a great deal for temporary sensation.

It is not so with THE CHICAGO RECORD. The success of THE RECORD rests upon its reliability.

It prints the news—all the news—and tells the truth about it.

It is the only American newspaper outside New York city that has its own exclusive dispatch boat service and its own staff correspondents and artists at the front in both hemispheres.

It is the best illustrated daily newspaper in the world. Its war news service is unapproachably the best.

Says the Urbana (Ill.) Daily Courier:

"We read the war news in the other papers, then we turn to THE CHICAGO RECORD to see how much of it is true."

The CLEVELAND Name Plate

Helps the looks of the wheel, but it don't take a name plate to tell a Cleveland. You can tell them by their high-grade appearance, their easy and noiseless running, showing there is absolutely no friction anywhere. Clevelands are made plain, good and substantial all over, and do not rely on bright, fancy enamel and fake talking points to secure their sale. Over

RELIABILITY

is a quality some newspapers have lost sight of in these days of "yellow" journalism. They care little for truth and a great deal for temporary sensation.

It is not so with THE CHICAGO RECORD. The success of THE RECORD rests upon its reliability.

It prints the news—all the news—and tells the truth about it.

It is the only American newspaper outside New York city that has its own exclusive dispatch boat service and its own staff correspondents and artists at the front in both hemispheres.

It is the best illustrated daily newspaper in the world. Its war news service is unapproachably the best.

Says the Urbana (Ill.) Daily Courier:

"We read the war news in the other papers, then we turn to THE CHICAGO RECORD to see how much of it is true."

Sold by newsdealers everywhere and subscriptions received by all postmasters. Address THE CHICAGO RECORD, 181 Madison street, Chicago.

BASEBALL PARK.

Mr. E. C. Terrell Secures a Good Lease.

Master Commissioner J. Will Fisher yesterday afternoon sold to the highest bidder the lease on the Rowlandtown baseball park, with all the park properties.

The price paid was but \$180, and the lease is for four years. The property in the park is also very valuable, and it is understood that Mr. Terrell will retain control of the park and rent it out for parties, dances and other such things. It is said that the four years' unexpected lease is alone worth \$500.

POPULAR CHAPLAIN.

At the services held for the Sixth Regiment last Sunday at Camp Alger Chaplain Dusseault (Protestant) said in the course of his address:

"It is with pleasure that I announce to the men of our regiment especially to those who have been brought up in the great Catholic Church, that the Fourth Missouri Regiment, has very kindly consented to come over here this afternoon at 4:30 o'clock to give us a service, and I am assured of this, that the Protestants of our regiment will most gladly turn out to hear this man, not simply on account of this distinguished father's service to country, but also on his own account; and furthermore, I wish to say that Father Sherman has arranged to have a Mass every Sunday morning at 9 o'clock, thus avoiding the regular

MEN OF MODERATE MEANS

Need no longer regard tailor-made clothes with fear and trembling. Dalton now makes clothes in his own shop, here at home--makes the clothes right, makes the billright. It costs but a trifle more to wear garments that fit than those that a'most fit. The acme of style and workmanship is ours. Drop in at 333 Broadway and see about that belated spring suit. You'll be glad you waited--it will cost you so little.

SCREEN + DOORS!

We still have a stock of those fancy screen doors, also seven-eighths and one-and-one-eighth-inch plain screen doors. The wire in these doors is not put on with tacks but securely fastened in grooves with a tongue or strip of wood. We are the only ones selling this class of screens in the city. Insist on having this kind; they are the best. Take no others so-called "just as good."
